» YBR-6001 Series Automobile Exhaust Bellows Flexible Hinge

No.	Parts	Materials
1	Stiffening ring	SUS304
2	Mesh jacket	SUS304
3	Bellows	SUS304/316L/321

◆ **Features:** The product is installed between exhaust pipes and silencers in the engine, which can damp vibration and reduce noise. It is easy to install and can extend the system life of exhaust silencers.

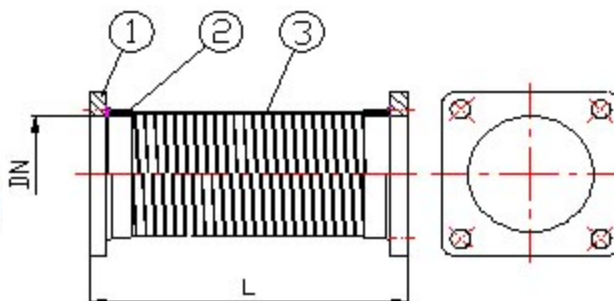

◆ **YBR-6001 Series Parameters:**

D: single-layer **S:** Double-layer

Product Model	Inside nominal diameter (in)	Inside nominal diameter(mm)	DN	O.D	δ		L
					D	S

Note: 1. L on-demand production, 2. Special specifications can be customized.

» YBR-6002 Series Automobile Spiral Hose

No.	Parts	Materials
1	Flange	SUS304/316/SS400
2	Stiffening ring	SUS304
3	Spiral coil	SUS304/ 316L/321

◆ **Features:** The product is installed between exhaust pipes and silencers in the engine, which can damp vibration and reduce noise. It is easy to install and can extend the system life of exhaust silencers

◆ **YBR-6002 Series Parameters:**

Product Model	Inside nominal diameter (in)	DN (mm)	δ	L
YBR-6002	1¾"	φ45		on-demand production
	2"	φ50	0.3	
	2¼"	φ60	0.3	
	2½"	φ65	0.4
